

From Sizzling to Stars!

Sibshops are a great way for the siblings of those with special needs to meet others who can relate, share their experiences, learn information that will help them understand their brother or sister better, learn new ways of coping when things get tough and how to deal with situations commonly experienced by siblings. All of this is done within a recreational context where siblings have fun with other kids who just “get it” while playing games, doing arts and crafts, making and eating a snack and just having some fun, all lead by a trained Sibshop Facilitator.

Registration has begun for the next series!
