

Charlie's Gift is pleased to introduce . . .

Charlie's Kids Club

A dynamic social communication program designed for **children ages 6-10**

Utilizing Michelle Garcia-Winner's **Superflex**[®] Curriculum, Kids Club will assist group participants* to develop further awareness of their own thinking and social behaviors, as well as to learn strategies to help them develop better self-regulation across a range of these behaviors.

This six-week program will target kids' ability to **initiate social interactions, identify social cues, stimulate social thinking** and **improve self-confidence** and **advocacy**. Participants will become superheroes while practicing their skills within the context of exciting, relevant and age-appropriate activities and interactions.

*We ask that all Kids Club participants demonstrate independence in a group setting.
Each session group will consist of **four to eight participants**.
