# BEFORE & AFTER SCHOOL SERVICES EXPANSION

For more than 20 years we have been providing Before and After School care to students at #OurHouse, transporting them to and from school, providing a seamless transition and comprehensive care before and after the school bell rings.

In 2018, in partnership with District 181, we fearlessly initiated a successful in-school program at Prospect Elementary School.

Based on the success of our services in-house and at Prospect, we are currently working with D181 to expand our Before and After School Services at Elm, Monroe, The Lane, and Walker Elementary Schools beginning in the 2019-2020 school year.

The children we serve before and after school are engaged in social, educational and active play. They eat a delicious, nutritious snack, get their homework done with the help of experienced staff, and participate in daily projects, like art and cooking.

Every day at TCH we are working hard to expand our reach and provide access to services that keep our community engaged. Our expansion within D181 is not only a testament to our work, but a great example of how a strong partnership can produce incredible results. We thank D181 for their support and look forward to continuing to provide their students and families with high quality care.

"Over the years, parents have shared that in-school programming is more convenient and an easier transition for their kids. Parent feedback has been excellent at Prospect and many families have asked that we offer the program in their D181 school. We are thrilled to expand our services and look forward to the 2019-2020 school year ahead."
