# A MESSAGE FROM PROGRAM DIRECTOR, BETH HAHN

2020-2021 School Year Update

At The Community House, we understand that the 20-21 school year has been filled with ups and downs. Our goal, as always is to support our community and provide child care services that enhance the educational experience. That's why we will continue to provide Before & After the Bell services to our D181 students and families as students get back to in-person learning.

If you are in need of the Before and After the Bell Program please fill out **[THIS SURVEY](#)**. The results will help determine if we will offer the program in your child's school. If there is low demand at your child's school we will be able to host a limited number of schools at The Community House and provide transportation from school.

We look forward to seeing you soon!

Sincerely, Beth
