

The Community House COVID Recovery Fund will help us do exactly what we've always done, provide recreation and quality social services that meet the vital needs and make a difference in the lives of thousands of individuals and families in our community, **without the support of tax dollars.**

For those who have donated recently, thank you. However, these are extraordinary times and if you can repeat your contribution, we would be incredibly grateful. For those who have not made a gift of late, please consider doing so. All donations will go directly to the support of our mission, including the re-launch of our critical programming this summer and fall.

With gratitude,

**Dan Janowick**  
**Executive Director**

## HOW TO MAKE A CONTRIBUTION

### In the mail:

Please make your check payable to The Community House and mail it in the enclosed envelope.

### Online:

Please visit [thecommunityhouse.org/covidrecoveryfund](http://thecommunityhouse.org/covidrecoveryfund)

**Thank you for  
your support!**

THE COMMUNITY HOUSE

# WELCOME TO THE COMMUNITY HOUSE, HOW CAN WE HELP YOU TODAY?

Walking through the open doors of The Community House, everyone is welcomed with a warm smile and a thoughtful question, *“How can we help you today?”*

These words, so simple and so common, have a new meaning to all of us. Everyone could use a little bit of warmth, joy and an open door, welcoming us back to the place that our community has called a second home for almost 80 years.

While COVID-19 presents a number of challenges, **this is not the first time our strength has been tested.** When our doors first opened in 1941, our community came together based on an overwhelming need for unity, support and comfort as World War II began and cast a shadow of fear and uncertainty throughout the world. Our perseverance through the Second World War and ability to stay united for eight decades is a testament to the fact that **strong communities can get through anything.**

**We're confident our community will build upon that strength and come together again to engage, play, learn, build relationships and live their best lives as we all heal from the COVID-19 crisis.**

Because we don't receive tax support, we'll need your help to ensure our doors stay open, welcoming back our community to a clean, safe, and comfortable building filled with a happy team of instructors, coaches, artists, therapists, and staff.

**As the community's trusted non-profit since 1941, we are asking you to open your hearts to help us keep our doors open. →**
